Kanek Perez

SENIOR FULL STACK WEB DEVELOPER

business.kanekperez@gmail.com   (310)984-4038

Profile

Versed in full-stack, but more proficient in front-end development.

Experience

Senior Lead Front End Developer, Ventmode

March 2020 — December 2020

Ventmode is a web/mobile application that is meant to connect customers and service providers of a variety of services.

• Placed in charge of the front-end side of the web application and entry-level developers.

• Using Semantic UI to manage client design and web/mobile responsiveness.

• Revamped previous Angular site to work using React.

• Created components that make use of Firebase's real-time database API.

• Implemented Firebase authorization to function with Email, Google, Facebook, and Twitter.

Education

Full Stack Web Development, Lambda School

November 2018 — August 2019

• Lambda School is a full-time (40 hrs/wk), immersive Software Engineer & Computer Science Academy.

• A project-based curriculum where students pair program and complete weekly sprint challenges.

Projects

Sleepsta - Full Stack Developer

March 2019 — April 2019

Description: A mobile application that uses motion tracking to measure sleep.

- Uses motion tracking to create data of sleep movement
- Utilized Redux to manage the store of the app
- Applied Styled-Components and Reactstrap for styling
- Implemented Oauth to handle login and user authorization
- Allows users to view sleep entries on IOS and web(in full detail)
- Tested and deployed front-end of the website on Netlify, back-end hosted on Heroku
